

VANCOUVER FRASER PORT AUTHORITY

EXECUTIVE COMPENSATION

Supplement to the Annual Report

A. Compensation

1. Base Salary

In order to attract, motivate and retain qualified employees, the Vancouver Fraser Port Authority targets its salaries and indirect compensation to be at the 60th percentile relative to the compensation paid by comparison organizations. A compensation review for benchmarked positions is undertaken every 3 – 5 years to ensure that our salary ranges retain their competitive position in the relevant market place.

2. Annual Incentive Plan

The Vancouver Fraser Port Authority offers an incentive plan for its employees, which may increase average total compensation beyond the 60th percentile and up to a maximum of the 75th percentile of the total compensation paid by competitors. Incentive awards are determined by a combination of corporate performance, which is measured against the Corporate Balanced Scorecard, approved annually by the Board of Directors, and individual performance measured against pre-approved objectives consistent with the Business Plan.

3. Other Annual Compensation

Executives are entitled to additional benefits such as Financial Planning, a Health Spending Account and Fitness and Health Club Memberships. They are also entitled to automobile benefits including coverage for insurance, license fees and Air Care; and operating and maintenance costs up to an established annual maximum.

B. Pension Plans

The Vancouver Fraser Port Authority provides pension plans, as follows:

1. Defined Benefit Pension Plans

Employees hired by the Vancouver Port Authority (VPA) on or before December 31, 2007 are members of the VPA Defined Benefit Pension Plan. Membership in the Basic Pension Plan is restricted to employees employed by VPA on March 1, 1999.

Employees' contributions are 4.0% of pensionable earnings, which is not in excess of the Year's Maximum Pensionable Earnings (YMPE) under the Canada Pension Plan; plus 7.5% of pensionable earnings, which is in excess of the YMPE. The amount of an employee's pension is based on 2% of the average of the best five years of pensionable earnings (salary and bonus) multiplied by credited years of service up to a maximum of 35 years. The annual pension payable is indexed based on increases in the Consumer Price Index.

Employees hired by the North Fraser Port Authority (NFPA) on or before December 31, 2007 are members of the NFPA Defined Benefit Pension Plan. Employees' contributions are 5.0% of pensionable earnings. The amount of an employee's pension is based on 2% of the average of the best five years of pensionable earnings (salary only) multiplied by credited years of service up to a maximum of 35 years.

VFPA also provides a Supplemental Pension Plan to defined benefit plan members. The Supplemental Pension Plan provides pension benefits in excess of the maximum permitted under current tax rules that apply to the Basic Pension Plans.

The normal retirement age under the Basic Pension Plans and the Supplemental Pension Plan is 65. Members are eligible to retire with an unreduced pension when they have attained age 60 and completed at least two years of membership service or attained age 55 and have at least 30 years of membership service.
