

TABLE OF CONTENTS

Preface.....	i
Executive Summary	iii
Table of Contents	xxvi
Acknowledgements	liv
Abbreviations	lvi
Glossary of Terms.....	lxii
Table of Concordance.....	lxviii
1.0 INTRODUCTION.....	1
1.1 PROPONENT IDENTIFICATION	3
1.2 PROJECT OVERVIEW	5
1.2.1 General Project Description	5
1.2.2 Project Rationale.....	7
1.2.3 Capital Cost and Job Creation.....	9
1.3 REGULATORY FRAMEWORK AND REASONS FOR THE ENVIRONMENTAL REVIEW	9
1.3.1 Provincial EA Process under BCEAA	10
1.3.2 Federal Process under CEAA	11
1.3.3 Joint BCEAA/CEAA Review Process.....	12
1.4 APPLICATION STRUCTURE	13
2.0 PROJECT DESCRIPTION	16
2.1 DESIGN STANDARDS	16
2.2 SITE GEOLOGY, SEISMICITY AND GEOTECHNICAL CONSIDERATIONS	17
2.3 PROJECT COMPONENTS	18
2.3.1 Wharf for the Third Berth.....	21
2.3.2 Container Storage Yard Land Area.....	24
2.3.3 Tug Moorage and Safety Boat Access.....	24
2.3.4 Ship Access Channel.....	24
2.3.5 Terminal Infrastructure	25
2.4 OFF-SITE PROJECT COMPONENTS (TRANSPORTATION FACILITIES).....	38
2.4.1 Rail Components.....	38
2.4.2 Road Components.....	39

2.5	LAND AND WATER LOT REQUIREMENTS	40
2.6	PROPOSED PROJECT PLAN AND SCHEDULE	42
2.7	CONSTRUCTION PHASE	43
2.7.1	Dredging, Landfill and Slope Protection	45
2.7.2	Soil Densification.....	48
2.7.3	Site Pre-loading.....	48
2.7.4	Caisson Fabrication and Placement	48
2.7.5	Terminal Area Work	49
2.7.6	Construction Materials and Equipment (including toxic/hazardous materials)	50
2.7.7	Construction Traffic.....	51
2.7.8	Waste Disposal (including toxic/hazardous materials).....	52
2.8	OFF-SITE CONSTRUCTION ACTIVITIES	52
2.8.1	Rail Construction	52
2.8.2	Road Improvements	57
2.9	OPERATIONS PHASE.....	57
2.9.1	Terminal Operations	57
2.9.2	Terminal Maintenance	58
2.9.3	Rail Operations (Rail Traffic).....	58
2.9.4	Road Operations (Road Traffic)	69
2.9.5	Marine Operations (Ship Traffic)	89
2.10	CAPITAL COSTS	97
2.11	LABOUR FORCE.....	98
3.0	PROJECT BACKGROUND.....	99
3.1	PROJECT LOCATION	99
3.2	PROJECT BACKGROUND AND RATIONALE.....	99
3.2.1	History of Developments at Roberts Bank	100
3.2.2	Port of Vancouver and the Container Industry	104
3.2.3	Project Justification.....	105
3.2.4	Summary of The Need For and Purpose of Project	123
3.2.5	Port of Vancouver’s Economic Contributions	124
3.2.6	Federal and Provincial Government Participation.....	125

3.3	PROJECT ALTERNATIVES AND SITE SELECTION	125
3.3.1	Alternatives to the Project.....	125
3.3.2	Do Nothing (Status Quo)	125
3.3.3	Increase Production of Existing Terminals without Site Expansion ..	126
3.3.4	Develop Terminals at Other Sites in the Port of Vancouver	128
3.3.5	Other Canadian West Coast Container Terminal Expansion Projects	129
3.3.6	“Alternatives To” Conclusion and Site Selection.....	130
3.4	ALTERNATIVE MEANS OF CARRYING OUT THE PROJECT AT ROBERTS BANK	131
3.4.1	Planning Criteria.....	131
3.4.2	Site Options.....	131
3.4.3	Preferred Site Option - Option 1 Revised.....	138
3.4.4	Alternative Means for Construction.....	140
3.5	PROJECT CONSTRAINTS.....	143
4.0	REVIEW SCOPE AND STUDY AREA	144
4.1	SCOPE OF PROJECT.....	144
4.2	SCOPE OF ASSESSMENT.....	145
4.3	PROJECT AND STUDY REGION (SPATIAL BOUNDARIES)	148
4.4	TEMPORAL BOUNDARIES	148
5.0	ENVIRONMENTAL ASSESSMENT METHODOLOGY.....	149
5.1	IMPACT ASSESSMENT REQUIREMENTS.....	149
5.1.1	General.....	149
5.1.2	Step 1 - Project Activities	149
5.1.3	Step 2 - Existing Environment (baseline conditions)	150
5.1.4	Step 3 - Project-Environment Interactions.....	151
5.1.5	Step 4 - Mitigation Measure(s).....	153
5.1.6	Step 5 - Residual Environmental Effects Assessment	153
5.1.7	Step 6 – Determination of Significance	154
5.2	OTHER ENVIRONMENTAL ASSESSMENT REQUIREMENTS	155
6.0	INFORMATION DISTRIBUTION AND CONSULTATION	156
6.1	OVERVIEW OF CONSULTATION PROGRAM	156
6.2	OVERVIEW OF INFORMATION DISTRIBUTION	158
6.2.1	Information Materials Distributed	158

6.2.2	Notification Provided.....	159
6.2.3	Communication Mechanisms.....	160
6.3	CONSULTATION ACTIVITIES.....	160
6.4	ISSUES IDENTIFICATION	162
6.5	FUTURE CONSULTATION	164
7.0	COASTAL GEOMORPHOLOGY	165
7.1	INTRODUCTION	165
7.2	STUDY AREA	165
7.3	METHODOLOGY	167
7.3.1	Interpretive Geomorphic Studies	167
7.3.2	Analytical Computations	168
7.3.3	Modelling Wave Climate.....	168
7.3.4	Modelling of Tidal Currents	169
7.3.5	Modelling of Sediment Transport.....	171
7.4	EXISTING ENVIRONMENT AND GEOMORPHIC PROCESSES	172
7.4.1	Coastal Features and Processes Affecting Roberts Bank	172
7.4.2	Roberts Bank Tidal Flat Morphology Prior to Terminal Developments	179
7.4.3	Roberts Bank Tidal Flat Morphology After Terminal Developments	182
7.4.4	Existing Coastal Geomorphic Environment	190
7.4.5	Conceptual Model of Tidal Flat Response.....	193
7.4.6	Results of Analytical Computations and Numerical Modelling	196
7.4.7	Summary of Existing Coastal Geomorphology Trends	207
7.5	ASSESSMENT OF IMPACTS	208
7.5.1	Analysis Framework	208
7.5.2	Impacts on Wave Conditions	209
7.5.3	Impacts on Tidal Currents.....	209
7.5.4	Impacts on Sediment Transport	211
7.5.5	Impacts on Tidal Drainage Channels.....	211
7.5.6	Conclusions.....	216
7.5.7	Significance of Effects.....	217
7.6	MITIGATION.....	218

7.7	RESIDUAL EFFECTS.....	218
8.0	WATER QUALITY.....	219
8.1	INTRODUCTION	219
8.2	STUDY AREA	219
8.3	METHODOLOGY	221
8.3.1	Literature Review.....	222
8.3.2	Field Surveys	222
8.3.3	Laboratory Measurements	224
8.4	EXISTING WATER QUALITY CONDITIONS	224
8.4.1	Existing Water Quality Roberts Bank.....	224
8.4.2	Water Quality In and Near the Agricultural Ditch.....	234
8.4.3	Comparison of Roberts Bank Water Quality to Agency Objectives/Guidelines	234
8.4.4	Comparison with Historical Water Quality Data.....	234
8.5	ASSESSMENT OF IMPACTS	235
8.5.1	Assessment of Impacts During Construction.....	235
8.5.2	Assessment of Impacts During Operation	236
8.6	MITIGATION MEASURES	237
8.6.1	Construction.....	237
8.6.2	Operation.....	237
8.7	RESIDUAL EFFECTS.....	237
9.0	SEDIMENT QUALITY.....	238
9.1	INTRODUCTION	238
9.2	THE STUDY AREA	240
9.3	METHODOLOGY	242
9.4	EXISTING ENVIRONMENT	244
9.4.1	Sediment Quality	244
9.5	ASSESSMENT OF IMPACTS	247
9.5.1	Assessment of Impacts During Construction.....	247
9.5.2	Assessment of Impacts During Operation	248
9.6	MITIGATION MEASURES	249
9.6.1	Construction.....	249

9.6.2	Operation.....	249
9.7	RESIDUAL EFFECTS AND CONCLUSION	249
10.0	MARINE ENVIRONMENT	250
10.1	INTRODUCTION	250
10.2	STUDY AREA	250
10.3	METHODOLOGY	252
10.3.1	Literature Review.....	252
10.3.2	Field Surveys	253
10.4	EXISTING MARINE ENVIRONMENT.....	256
10.4.1	Backshore/Marine Riparian	256
10.4.2	Intertidal Marshes	259
10.4.3	Intertidal Sand/Mud Flats	260
10.4.4	Eelgrass.....	261
10.4.5	Macrophyte cover	262
10.4.6	Intertidal/Subtidal Rock.....	262
10.4.7	Subtidal Sand/Mud.....	262
10.4.8	Dredge Basins	263
10.4.9	Macroinvertebrates	263
10.4.10	Fishes	265
10.4.11	Marine Mammals.....	267
10.4.12	Habitat Functions.....	267
10.5	ASSESSMENT OF IMPACTS – ANALYSIS FRAMEWORK.....	268
10.5.1	Valued Ecosystem Components	271
10.6	ASSESSMENT OF IMPACTS - FOOTPRINT	275
10.7	ASSESSMENT OF IMPACTS - CONSTRUCTION.....	278
10.8	ASSESSMENT OF IMPACTS – OPERATIONS	281
10.9	MITIGATION MEASURES	282
10.9.1	Habitat Compensation.....	282
10.9.2	Construction.....	285
10.9.3	Operation.....	288
10.10	RESIDUAL EFFECTS.....	289
10.11	CONCLUSION.....	308

10.11.1	Marine Eutrophication	310
11.0	WATERFOWL AND COASTAL SEABIRDS	315
11.1	INTRODUCTION	315
11.2	THE STUDY AREA	315
11.3	METHODOLOGY	317
11.3.1	Literature Review.....	317
11.3.2	Field Surveys	317
11.3.3	Overhead Powerline Bird Impact Assessment.....	319
11.3.4	Data Analysis	319
11.4	EXISTING ENVIRONMENT	320
11.4.1	Species Composition.....	320
11.4.2	Federally and Provincially Listed Bird Species.....	320
11.4.3	Foraging Guilds	324
11.4.4	Nesting Birds	329
11.4.5	Waterfowl and Coastal Seabird Habitat.....	331
11.5	ASSESSMENT OF IMPACTS – ANALYSIS FRAMEWORK	333
11.5.1	Valued Ecosystem Components	336
11.6	ASSESSMENT OF IMPACTS - FOOTPRINT	340
11.6.1	Footprint Impacts – Valued Ecosystem Components.....	340
11.6.2	Footprint Impacts – General	342
11.7	ASSESSMENT OF IMPACTS - CONSTRUCTION	343
11.7.1	Construction Impacts - Valued Ecosystem Components.....	344
11.7.2	Construction Impacts - General	346
11.8	ASSESSMENT OF IMPACTS - OPERATION	349
11.8.1	Operation of Deltaport Third Berth	349
11.8.2	Overhead Powerlines	349
11.9	MITIGATION MEASURES	350
11.9.1	Habitat Compensation.....	350
11.9.2	Construction	351
11.9.3	Operation.....	352
11.10	RESIDUAL EFFECTS.....	352
11.11	MANAGEMENT AND MONITORING	362

11.12	CONCLUSION.....	362
12.0	TERRESTRIAL WILDLIFE AND VEGETATION.....	364
12.1	INTRODUCTION	364
12.2	THE STUDY AREA	364
12.3	METHODOLOGY	366
12.3.1	Literature Review.....	366
12.3.2	Field Survey	366
12.3.3	Mapping.....	372
12.4	EXISTING ENVIRONMENT – VEGETATION	373
12.4.1	Federally and Provincially Listed At-Risk Vegetation.....	373
12.4.2	Vegetation of the Study Area.....	375
12.4.3	Habitats	376
12.5	EXISTING ENVIRONMENT - WILDLIFE	377
12.5.1	Federally and Provincially Listed Fauna Species	377
12.5.2	Wildlife in the Study Area	384
12.6	ASSESSMENT OF IMPACTS – ANALYSIS FRAMEWORK.....	387
12.6.1	Valued Ecosystem Components	391
12.7	ASSESSMENT OF IMPACTS - CONSTRUCTION.....	392
12.7.1	Construction Impacts - Valued Ecosystem Components.....	392
12.7.2	Construction Impacts - General	397
12.8	ASSESSMENT OF IMPACTS – OPERATION.....	400
12.9	MITIGATION MEASURES	400
12.9.1	Construction.....	400
12.9.2	Operation.....	402
12.10	RESIDUAL EFFECTS.....	402
12.11	CONCLUSION.....	412
13.0	AIR QUALITY.....	413
13.1	INTRODUCTION	413
13.2	AIR QUALITY ASSESSMENT	413
13.2.1	Study Area	413
13.2.2	Methodology.....	418
13.2.3	Issue Scoping	420

13.2.4	Air Quality Scenarios.....	421
13.2.5	Background Air Quality.....	427
13.2.6	Air Quality Assessment Criteria.....	430
13.2.7	Sulphur Dioxide.....	431
13.2.8	Nitrogen Dioxide.....	432
13.2.9	Carbon Monoxide.....	433
13.2.10	Particulate Matter.....	434
13.2.11	Ozone.....	435
13.3	IMPACT ASSESSMENT.....	437
13.3.1	Existing Ambient Air Quality - 2003.....	437
13.3.2	Existing Baseline - Emissions Inventory -2003.....	440
13.3.3	Construction.....	446
13.3.4	Project Operation.....	451
13.3.5	Cumulative Effects Assessment.....	457
13.3.6	Impact of Project Operation on Greenhouse Gases.....	464
13.3.7	Ozone.....	465
13.3.8	Analysis of Assumptions Used in the Scenario Model Predictions....	468
13.3.9	Impact Assessment Framework and Results.....	469
13.4	RESIDUAL EFFECTS.....	470
13.5	RECOMMENDED MITIGATION MEASURES - GENERAL.....	471
13.6	RECOMMENDED MITIGATION/INITIATIVES FOR DELTAPORT THIRD BERTH PROJECT.....	472
13.6.1	Construction.....	472
13.6.2	Operation.....	473
13.7	AIR QUALITY CONCLUSION.....	477
13.8	HUMAN HEALTH RISK ASSESSMENT AND WILDLIFE HEALTH RISK ASSESSMENT	478
13.8.1	Introduction.....	478
13.8.2	Methodology.....	479
13.8.3	Potential Impacts.....	480
13.8.4	Conclusion.....	481
14.0	NOISE.....	521
14.1	INTRODUCTION.....	521

14.2	STUDY AREA	521
14.3	ACOUSTIC TERMINOLOGY.....	523
14.4	EXISTING NOISE ENVIRONMENT	523
14.4.1	Information Received from the Corporation of Delta, TSI and Local Residents.....	524
14.4.2	Previous Noise Studies	524
14.4.3	Ambient Noise Measurements.....	525
14.5	ASSESSMENT OF IMPACTS - ANALYSIS FRAMEWORK	526
14.6	CONSTRUCTION NOISE IMPACTS	528
14.6.1	Construction Traffic.....	531
14.7	OPERATION NOISE IMPACTS	531
14.7.1	Predicted Noise Levels	531
14.7.2	Predicted Noise Impacts	534
14.8	MITIGATION MEASURES	538
14.8.1	Construction.....	538
14.8.2	Operation.....	538
14.9	CONCLUSION.....	540
15.0	VISUAL	542
15.1	INTRODUCTION	542
15.2	THE STUDY AREA	542
15.3	EXISTING VISUAL ENVIRONMENT.....	542
15.4	VISUAL IMPACT ASSESSMENT - ANALYSIS FRAMEWORK	547
15.4.1	Representative Viewpoints	549
15.5	VISUAL IMPACT ASSESSMENT.....	553
15.5.1	Construction.....	553
15.5.2	Operation.....	553
15.5.3	Analysis of Visual Impacts from Representative Viewpoints	553
15.6	MITIGATION MEASURES	562
15.6.1	Construction.....	562
15.6.2	Operation.....	562
15.7	RESIDUAL EFFECTS.....	562
15.8	CONCLUSION.....	563

16.0	LIGHTING.....	564
16.1	INTRODUCTION	564
16.2	STUDY AREA	564
16.3	METHODOLOGY	564
16.4	LIGHTING TERMINOLOGY	565
16.5	ROBERTS BANK PORT FACILITY LIGHTING DESCRIPTION	566
	16.5.1 Container and Intermodal Yard Lighting.....	566
	16.5.2 Causeway and Rail Yard Lighting.....	567
16.6	REPRESENTATIVE VIEWPOINTS	568
16.7	ASSESSMENT OF IMPACTS	571
	16.7.1 Construction.....	571
	16.7.2 Operation.....	572
	16.7.3 Analysis of Lighting Impacts - Representative Viewpoints	572
	16.7.4 Flora and Fauna.....	578
	16.7.5 Safety and Security	578
16.8	MITIGATION MEASURES	578
	16.8.1 Construction.....	578
	16.8.2 Operation.....	579
16.9	RESIDUAL EFFECTS.....	582
16.10	CONCLUSION.....	582
17.0	SOCIO-COMMUNITY AND ECONOMICS	583
17.1	INTRODUCTION	583
17.2	STUDY AREAS.....	583
17.3	METHODOLOGY	584
	17.3.1 Socio-Community Impact Assessment Methodology	584
	17.3.2 Economic Impact Assessment Methodology and Model.....	585
17.4	EXISTING SOCIO-COMMUNITY ENVIRONMENT.....	586
	17.4.1 Delta Overview	586
	17.4.2 Corporation of Delta Demographics.....	587
	17.4.3 Land Use Planning Context	587
	17.4.4 Tsawwassen First Nation (TFN) Overview	589
	17.4.5 Greater Vancouver Regional District.....	590

17.4.6	Transportation and Traffic	590
17.4.7	Health, Emergency and Protective Services	591
17.4.8	Community and Social Services, and Facilities.....	593
17.4.9	Tsawwassen First Nation Community Facilities and Services	593
17.5	EXISTING ECONOMIC ENVIRONMENT	594
17.5.1	Labour Force	594
17.5.2	Personal Income.....	596
17.5.3	Economic Development – Building Permits and Housing Starts	597
17.5.4	Economic Development – Incorporations and Bankruptcies.....	598
17.5.5	Local Industrial Base	598
17.6	SOCIO–COMMUNITY IMPACT ASSESSMENT	599
17.6.1	Assessment Criteria	599
17.6.2	Construction Impacts	600
17.6.3	Operational Impacts	605
17.7	ECONOMIC IMPACT ASSESSMENT	607
17.7.1	Direct Economic Impact of Construction	608
17.7.2	Direct Economic Impact of New Terminal Operations	610
17.7.3	Direct Economic Impact from Business Activities Outside the Marine Terminal.....	612
17.7.4	Overall Direct Economic Impact Summary.....	614
17.7.5	Total Economic Impact (Direct + Secondary) from the Third Berth Project	615
17.8	MITIGATION.....	616
17.9	CONCLUSION.....	617
18.0	ARCHAEOLOGICAL OVERVIEW AND IMPACT ASSESSMENT	620
18.1	INTRODUCTION	620
18.2	THE STUDY AREA	620
18.3	ARCHAEOLOGICAL OVERVIEW	622
18.3.1	Methodology	622
18.3.2	Palaeoenvironment.....	622
18.3.3	The Central Coast Salish.....	623
18.3.4	Previous Archaeological Research	624

18.3.5	Known Archaeological Sites in the Study Area	625
18.3.6	Potential for Archaeological Sites in the Study Area	626
18.3.7	Archaeological Overview Recommendations.....	630
18.4	ARCHAEOLOGICAL IMPACT ASSESSMENT	630
18.4.1	Methodology	630
18.4.2	Results.....	631
18.4.3	Impact Analysis Framework.....	631
18.4.4	Assessment of Impacts During Construction.....	637
18.4.5	Assessment of Impacts During Operation	638
18.5	MITIGATION MEASURES	638
18.6	RESIDUAL EFFECTS	639
18.7	CONCLUSION.....	639
19.0	ACCIDENTS AND MALFUNCTIONS	640
19.1	INTRODUCTION	640
19.2	CONSTRUCTION	641
19.2.1	Spills and Leaks	642
19.2.2	Transport of Dangerous Goods.....	643
19.2.3	Waste Management.....	643
19.2.4	Health and Safety / Emergency Response	643
19.3	OPERATION	644
19.3.1	Spills and Leaks	644
19.3.2	Ship Collisions/Grounding.....	650
19.3.3	Transport of Dangerous Goods.....	650
19.3.4	Emergency Response	651
19.3.5	Waste Management and Disposal.....	653
19.3.6	Health and Safety	654
19.4	CONCLUSION.....	660
20.0	SUMMARY OF PROJECT IMPACTS, MITIGATION REQUIREMENTS AND RESIDUAL EFFECTS.....	661
20.1	SUMMARY OF PROJECT IMPACTS	661
20.2	SUMMARY OF RESIDUAL EFFECTS	693
21.0	ENVIRONMENTAL MANAGEMENT PROGRAM.....	694

21.1	HABITAT MITIGATION AND COMPENSATION PLAN	694
21.1.1	Eelgrass/Mudflat Compensation Habitat	694
21.1.2	Salt Marsh Compensation Habitat	699
21.1.3	Coastal Geomorphology Considerations	700
21.1.4	Summary	701
21.2	ENVIRONMENTAL MANAGEMENT AND MONITORING.....	701
21.2.1	Overview.....	701
21.2.2	Construction Environmental Management Plan	703
21.2.3	Operational Environmental Management Plan.....	711
21.2.4	Environmental Reporting.....	714
21.2.5	Environmental Audit.....	714
21.2.6	Summary.....	714
22.0	EFFECTS OF THE ENVIRONMENT ON THE PROJECT	716
22.1	SEISMIC EVENTS	716
22.1.1	Background.....	716
22.1.2	Seismic Design Criteria and Site Geology.....	717
22.1.3	Seismic considerations for the Wharf Structure	718
22.1.4	Seismic Considerations for the Container Yard, Structures and Buildings.....	719
22.1.5	Summary	720
22.2	TSUNAMI.....	720
22.3	CLIMATE CHANGE	722
22.3.1	Sea Level Rise.....	722
22.3.2	Extreme Weather Events.....	723
22.3.3	Effect of Climate Change on Deltaport Third Berth.....	724
22.4	CONCLUSION.....	724
23.0	CUMULATIVE EFFECTS ASSESSMENT	726
23.1	REASON FOR THE CUMULATIVE EFFECTS ASSESSMENT	727
23.2	METHODOLOGY	728
23.2.1	Scoping	728
23.2.2	Analysis of Effects.....	729
23.2.3	Mitigation Identification	729

23.2.4	Significance Evaluation	730
23.2.5	Follow-up.....	730
23.3	SCOPING	732
23.3.1	Scoping the Valued Ecosystem Components	732
23.3.2	Scoping Historic and Existing Projects / Activities.....	732
23.3.3	Scoping Future Projects / Activities	738
23.3.4	Scoping Spatial and Temporal Boundaries.....	742
23.4	ANALYSIS OF EFFECTS.....	744
23.5	COASTAL GEOMORPHOLOGY ANALYSIS	744
23.5.1	Coastal Geomorphology Ecosystem Receptors	744
23.5.2	Marine Habitats.....	745
23.5.3	Coastal Geomorphology - Significance of Effects	747
23.6	WATER QUALITY ANALYSIS.....	748
23.6.1	Water Quality Ecosystem Receptors	748
23.6.2	Marine Eutrophication	748
23.6.3	Water Quality - Significance of Cumulative Effects	754
23.7	ECOLOGY ANALYSIS.....	754
23.7.1	Ecology Ecosystem Receptors.....	754
23.7.2	Marine Biota	755
23.7.3	Birds.....	759
23.7.4	Marine Mammal populations.....	764
23.7.5	Ecology - Significance of Cumulative Effects.....	767
23.8	NOISE ANALYSIS.....	768
23.8.1	Noise Ecosystem Receptors.....	768
23.8.2	Resident's Perceptions.....	768
23.8.3	Noise - Significance of Cumulative Effects.....	771
23.9	TRAFFIC ANALYSIS.....	771
23.9.1	Traffic Ecosystem Receptors	772
23.9.2	Traffic Delays	772
23.9.3	Traffic - Significance of Cumulative Effects.....	777
23.10	SIGNIFICANCE EVALUATION	777
23.11	FOLLOW-UP	780

24.0	SUSTAINABLE DEVELOPMENT	781
24.1	INTRODUCTION	781
24.1.1	Legislative Requirement	782
24.1.2	Background to Sustainable Use Assessments.....	782
24.2	ASSESSMENT CRITERIA	783
24.3	SUSTAINABILITY ASSESSMENT	784
24.3.1	Existing Environmental Policies.....	784
24.4	BIOPHYSICAL	785
24.5	SOCIO-COMMUNITY	786
